

CAREER PATHWAYS IN PREVENTIVE MEDICINE

Preventive Medicine Physicians

are licensed allopathic (MD) and osteopathic (DO) physicians who possess expertise in a broad range of health care skills, including biostatistics, epidemiology, management of health care organizations, research, and the practice of prevention in clinical settings.

They apply their knowledge and skills in medicine, social, economic, and behavioral sciences to improve the health and quality of life of individuals, families, communities and populations through disease prevention and health promotion.
