New York	New York City Department of Health and Mental Hygiene Public Health & Preventive Medicine	Charlene Ngamawajasat healthrp@health.nyc.gov	Guiberly Cadeau gcadeau@health.nyc.gov	ERAS/NRMP	PGY-1s	N/A	1. We do participate in ERAS but currently aren't in the Match. Our program underwent a transition and need time to focus on that. 2. We currently only take applicants that have completed a PGY-1 year. We're different from other programs in that we are at a public health agency and subject to city policies and that affects the ability to make certain changes. Private institutions have more leeway on that.

We do not participate in ERAS/NRMP. DoD program fill using the Army's MODS system for applications, then select residents at the Joint GME Selection Board at USUHS in November. We cannot accept residents who are not Active Duty Air Force as that is all that we are funded to accept. That includes our international applicants, who must be on Active Duty orders through the Department of State in an agreement with their nation's military. 2. We do not accept 4th year med students. I would like to be able to put together a direct accession pathway to include PGY-1 applicants, but that would involve a great deal of policy change. For now, that answer is no. I have no doubt that I would get extra applicants if I could change that.
